

Data Sheet

Use of pressure containers

1. Contact person

Leipziger Messe GmbH
Technical Event Management Department (TI-VT)

Messe Allee 1
04356 Leipzig

Tel.: 0341 / 678 - 9906
E-Mail: veranstaltungstechnik@leipziger-messe.de

This department coordinates all required boundary conditions with the company's project manager.

2. Application area and principles

This data sheet applies solely to the premises of Leipziger Messe GmbH. Pressure containers may only be used with the express approval of Leipziger Messe. Approval must be obtained in writing (order form A12 "Pressurised and liquid gas cylinders" on-line order system under "Technical approvals").

The provisions are enshrined in the Technical Guidelines (TR 5.6.3).

3. Requirements and information

1. A pressure container is required for the presentation of an exhibit.
2. Compressed gas flasks / cylinders must be protected against impact, falling over, unauthorized access and heat in accordance with the relevant accident prevention regulations.
3. The test certificates for the pressure container pursuant to the operational safety regulation must be held available on location and submitted on request.
4. A supplementary full inspection cannot be performed during the trade fair set-up period.

Information regarding the relevant provisions are provided by:

Saxony State Directorate
Department 5, Occupational Safety Leipzig
